WELCOME TO OUR 2026 FULL LINE CATALOG

At Access Lighting, we believe great lighting does more than brighten a space—it helps create comfort, connection, and a sense of home.

This catalog represents our most complete collection yet. Thoughtfully designed to bring together beautiful styles, dependable performance, and the kind of lighting that defines your space.

For 37 years, we have remained committed to doing business the right way, with character, integrity, and pride in every detail. As a family-founded, second-generation, and proudly woman-owned company, Access Lighting is built on lasting relationships, quality craftsmanship, and a genuine passion for what we do. We are honored to design indoor and outdoor luminaires that bring warmth, beauty, and lasting value to residential and commercial spaces alike.

LOCATION & LOGISTICS

With headquarters in Irvine, California, and our primary distribution center in Greenville, South Carolina, Access Lighting is strategically positioned to support our partners nationwide with responsive service and efficient shipping.

For in-stock items, orders received by 1 p.m. are shipped on the same day, helping keep projects moving and timelines on track. Our bicoastal presence allows us to serve customers nationwide with the speed, reliability, and personal attention they can count on.

SERVICE & SUPPORT

At Access Lighting, we believe exceptional service is an essential part of quality.

Spanning both coasts, our in-house service team comprises experienced lighting professionals who understand the importance of timely answers, knowledgeable support, and accurate order processing. Whether you need technical guidance, product information, or help with an order, our team is accessible, responsive, and committed to making every interaction as smooth and helpful as possible.

THOUGHTFUL DESIGN. DEPENDABLE PERFORMANCE

At Access Lighting, we create lighting that feels at home in residential spaces while delivering the durability and performance required for commercial environments. We take pride in offering thoughtful, dependable solutions that bring together style, function, and long-term value. From multifamily living to hospitality and dining spaces, our fixtures are designed to meet the demands of modern projects without compromising warmth or character.

DESIGNED FOR TODAY'S PROJECT NEEDS

Many of our fixtures include specialized features that support flexibility, performance, and ease of specification:

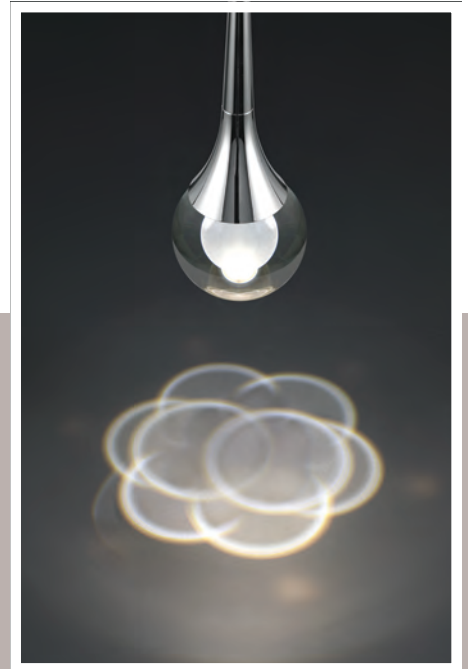

- **Dual Voltage (120/277V):** Ideal for commercial and multifamily applications
- **Marine-Grade Finishes:** Built to perform in coastal and high-humidity environments.
- **Field Selectable Multi-CCT:** Offers on-site flexibility to suit the application and aesthetic

For projects with unique requirements, our catalog is only the starting point. At Access Lighting, our in-house design expertise and flexible manufacturing capabilities enable us to create fixtures that closely align with your project's vision and specification requirements. We take pride in helping bring distinctive ideas to life with solutions that are both thoughtful and reliable.

Standard options, including available finishes, custom color-temperature options, and other product-specific modifications, are noted in the product footnotes throughout the catalog. If the option you need is not specifically listed, our service team and sales partners are here to help identify the right solution for your project.

As you turn the page, we hope you feel inspired by the possibilities, by the manner in which lighting can shape a space, set a mood, and bring a vision to life. Explore thoughtful designs paired with real-world application imagery that showcases each collection in use and sparks ideas for the possibilities.

We are grateful for the opportunity to help illuminate your next exceptional space.

FLUSH MOUNT

Mid-century modern design meets contemporary sophistication in the Nikki semi-flush mount. This 4-light fixture features a bold, open-planned square frame in matte black, surrounding a central brass socket cluster that creates a striking contrast of color and texture. Pair with filament lamps for a nostalgic industrial feel or move towards a contemporary look with a frosted G25.

Roma is a striking contemporary flush mount that delivers exceptional style at an approachable price point. Its design features generous exposed metal, creating a bold decorative accent that contrasts beautifully with the crisp white glow of the integrated LED, which shines through an opal diffuser. The result is a refined, modern aesthetic that feels far more elevated than its price suggests. Available in multiple sizes and finishes to complement a variety of interiors.

ATOM

Atom is a transitional flush mount with a design aesthetic that can straddle both a contemporary and slightly more traditional space. A thicker metal band on the housing draws more attention to the finish, which can be paired with other details in the space, creating a cohesive look and feel. Atom, when purchased with the supplied bulb, is JA8/title 24 compliant and delivers a big punch in the 14" model that is equipped with three sockets.

SEMI-FLUSH

DUO

With abstract, off-center, and stacked linear bars, Duo brings striking visual interest to any space. The adjustable design lets you reposition the light bars for a customized, architectural look. Balance is overrated with Duo, a bold LED semi-flush luminaire that plays with shape, contrast, and negative space.

The Lily mini pendant combines clean, contemporary design with transitional detailing for a balanced, timeless aesthetic. At the top of the shade, a knurled metal cap creates a striking juxtaposition between this detailed metalwork and the contemporary form of the shade around and below it. Designed for functionality and style, Lily is compatible with a variety of medium-base lamps.

IRIS

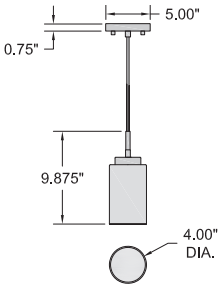

This one-light mini pendant brings a touch of modern elegance to any space. The softly rounded opal glass shade complements both contemporary and transitional interiors. Iris's compact form makes it ideal for kitchens, islands, or intimate dining areas. Designed for versatility and ease, this fixture accommodates a standard E26 lamp, offering endless possibilities for illumination—from bright task lighting to gentle mood-setting warmth.

DAPHNE

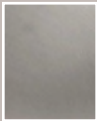

Daphne is an all-glass wall sconce defined by its sleek, angled silhouette and refined simplicity. Secured to the backplate with petite thumbscrews, the design balances clean lines with subtle detailing. Available with either a single E26 lamp or dedicated LED, Daphne's opal glass delivers both soft illumination and inviting ambiance.

For those drawn to pure minimalist form, Sense delivers with effortless clarity. Sleek, crisp white cylindrical glass creates a striking contrast against the square chrome backplate, giving the fixture a clean, modern edge. Integrated LED technology provides smooth, even illumination through the glass, while metal end caps at both ends add a refined finishing touch.

LAGUNA

Laguna is a compact outdoor wall mount that proves small can be striking. Its rounded corners and sloped sides give it a refined, versatile silhouette that fits almost anywhere. The Frosted Acrylic diffuser produces a soft, even glow that washes the wall, gently lights the surrounding area, and provides downward illumination for safe, inviting outdoor spaces.

NOTES

The Modplus EM case height match is designed for a discerning eye. This standard flush-mount fixture maintains the same depth as its emergency battery back-up counterpart, ensuring a consistent appearance. This is especially important in corridors, where a mix of emergency and non-emergency fixtures can otherwise appear visually disruptive.

READING

LIZBO

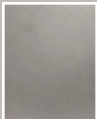

The Lizbo LED reading light is a beautifully designed luminaire that inspires you to indulge in a good book in your favorite chair. Lizbo's adjustable arm swings horizontally while its luminaire head tilts vertically to allow for accurate placement. Its thoughtful design features a harmonious interplay of round and linear shapes, making it a versatile choice for traditional to modern styles.

BARSA

With a nod to the Art Deco design, the Barsa envelops the angular shapes and geometric patterns of the style. The conical luminaire shade has an asymmetrical edge that extends the angle of the neck for a balanced and purposeful design. The neck swivels horizontally at the base and vertically at the luminaire. Located on the canopy is an easy rocker button switch for on/off power.
