Located in Irvine California and Greenville South Carolina, Access Lighting is a 2nd generation woman-owned manufacturer of residential and commercial indoor and outdoor luminaires.

As businesses everywhere face the challenges of an increasingly complex and noisy world, we are here to support you. Our goal is to assist you today while guiding you into the future. This is how we position ourselves at Access Lighting – a new kind of lighting partner for a new kind of world.

Lighting

From insights to action, the journey to exceptional value begins here. Our modern collection of energy-efficient lighting offers an exciting new experience, blending cutting-edge design with advanced technology. Streamline your lighting design by selecting from our extensive collection of luminaires thoughtfully crafted to seamlessly complement each other.

Whether you're designing for a contemporary space or a timeless look, these cohesive luminaires help you create a unified, stylish ambiance throughout your project. From pendants and sconces to flush mounts, each piece is designed to work in harmony, ensuring a coordinated and visually pleasing lighting experience. Bring your vision to life with products that combine functionality with sophisticated style.

If you can envision it, we can make it happen. At Access Lighting, we recognize that lighting and design needs are as unique as the ideas they illuminate. Whether you're looking to value-engineer a product, adjust a product, or create something entirely new, we're here to bring your vision to life.

From modifying finishes or color temperatures on an existing Access Lighting fixture to developing a concept from scratch, we'll collaborate with you every step of the way—design through development. Together, we'll turn your concept into reality and stay within budget.

At Access Lighting, your one-of-a-kind designs deserve careful attention, smooth collaboration, and a simplified process. This is where we shine.

Reach out to our design experts today and let us help bring your lighting project to life!

TYNE

Trends

Lighting is no longer just functional—it's experiential, transformative, and integral to design.

From bold advancements in smart technology to the embrace of sustainable materials, the lighting industry is evolving at an unprecedented pace. This year, we're seeing a fusion of artistry and innovation, where form meets function to redefine how spaces are illuminated.

Dive into the latest trends shaping today's lighting. Whether it's dynamic LEDs that set the mood or sculptural fixtures that make a statement, this guide highlights what's redefining the illumination of our spaces.

Incorporating natural materials is key to achieving a nature-inspired aesthetic. Our designs feature elements like leather and wood accents, which add texture and warmth to any space. These materials not only enhance the visual appeal of the space but also bring a tactile quality that connects you to the natural world. By combining organic materials in our luminaires, our designs foster a harmonious and balanced living space.

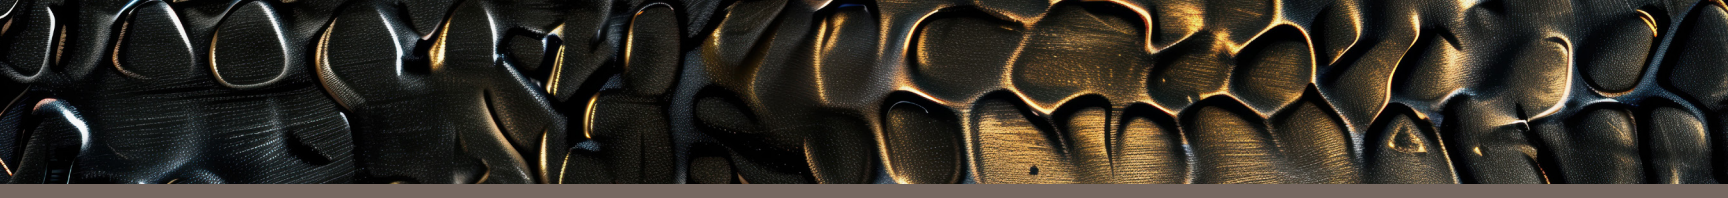

TANNER

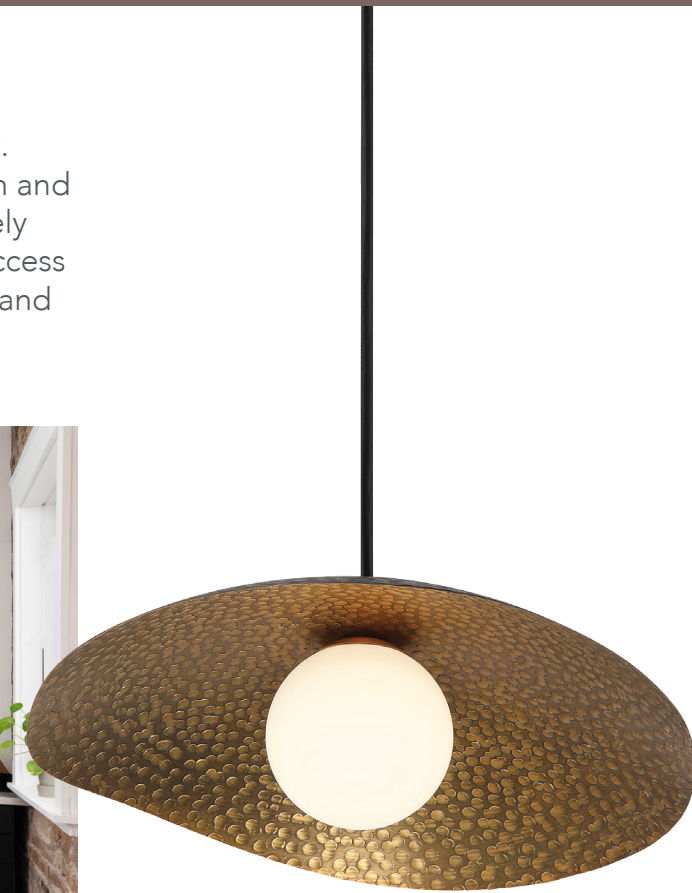

NOSTALGIA

Unleash the power of texture to enhance interiors adding a dynamic and engaging element in the and environment. Access Lighting's textured luminaire designs create depth and visual interest, making your space feel inviting and uniquely stylish. From hammered materials and intricate details, Access Lighting blend a variety of textures to craft a harmonious and sophisticated atmosphere.

YATES

Available as pendant with many glass options

Quiet luxury is all about understated elegance, refined simplicity, and timeless appeal. To achieve this, Access Lighting focuses on high-quality materials, meticulous craftsmanship, and a curated selection of elements that exude sophistication without overt opulence. This design approach creates a serene and sophisticated environment that feels effortlessly luxurious. Quiet luxury is an expression of refined taste and a preference for quality.
